Uninstallation of PST Password Remover

Using Software Uninstaller

- Click Start button from the Windows menu. Click All Programs » PST Password Remover » Uninstall PST Password Remover
- A Warning message before un-installing will be displayed on the screen. Click Yes to uninstall the software:

![Warning message](image)

- After this step, PST Password Remover setup will start the process of uninstalling the software from the computer system.
- After this PST Password Remover will be successfully uninstalled from the computer system. Click on OK to close the window.

Uninstall Using Control Panel

Another alternative described here for software uninstall is through Windows Control Panel which holds and maintains all system settings. This alternative is described here just for sake of completeness. You can easily skip this step if done with prior uninstall process.

- Click Start and look for Control Panel in start menu appears before you. Find Add and Remove Programs within Control Panel. Add and Remove Program generates comprehensive listing of all binaries presently installed on Windows. Find out PST Password Remover and double click on it to start with its uninstall procedures.
● Software prompts you either you like to remove **PST Password Remover** and all of its related components. Go for **Yes**.
● Click **OK** to message describing successful uninstall of **PST Password Remover**.
